

Brand Colors (CMYK)

The CCIG color palette was recently refreshed and expanded to feel more modern while providing for increased design flexibility. Be sure to use only the colors and values specified on this page for the brand moving forward.

Each color shown here is presented in three different color spaces: the Pantone® Matching System (PMS), CMYK, and RGB. Hex codes are another way to translate RGB values, and their usage is interchangeable depending on the application).

Pantone and CMYK are used for printing, while RGB and HEX are used for digital applications. More detailed usage about each color space can be found on the Logo File Types page of this guide.

** Provided PMS and CMYK values are best approximations based on the values found on the [Pantone® website](#).*

CCIG Dark Blue PMS 540U CMYK 94-47-11-70 RGB 21-50-67 HEX #153243	CCIG Green PMS 2300U CMYK 36-00-90-02 RGB 143-178-78 HEX #8FB24E
CCIG Light Blue PMS 2160U CMYK 71-29-05-28 RGB 54-110-142 HEX #366E8E	CCIG Grey PMS 427U CMYK 15-07-10-04 RGB 191-199-203 HEX #BFC7CB
CCIG Yellow PMS 135U CMYK 00-18-61-00 RGB 255-198-102 HEX #FFC666	CCIG Light Grey PMS 427U (25%) CMYK 04-02-03-01 RGB 237-236-237 HEX #EDECED White PMS n/a CMYK 00-00-00-00 RGB 255-255-255 HEX #FFFFFF
